

DASARI VASU

Chennai, India

Phone: +91-9701850629 — Email: dasarivasu827@gmail.com

GitHub: github.com/dasarivasu827 — LinkedIn: linkedin.com/in/dasari-vasu-937817341

Summary

Computer Science Engineering student with strong foundations in Python, Machine Learning, and Data Analytics, along with frontend development expertise using React.js. Experienced in developing AI-based predictive systems using deep learning models such as CNN, LSTM, and GRU. Passionate about solving real-world problems using data-driven approaches and building scalable applications.

Education

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology, Chennai 2023–2027

Bachelor of Technology in Computer Science and Engineering

CGPA: **8.8 / 10**

Narayana Junior College 2021–2023

Intermediate (MPC)

Percentage: **86%**

ST Peter's EM High School 2020–2021

Secondary School (10th Grade)

Percentage: **95%**

Technical Skills

Programming Languages: Python, Java, JavaScript

AI / ML: CNN, LSTM, GRU, CNN-LSTM, Deep Learning (Basics)

Data Analytics: Pandas, NumPy, Data Visualization

Web Development: HTML, CSS, React.js, React Native

Tools & Databases: Git, GitHub, MySQL, VS Code, PyCharm

Core CS: Data Structures and Algorithms, Problem-Solving, Statistics Basics

Projects

AI-Based Aquaculture Monitoring System *Python, Deep Learning, Remote Sensing*

- Developed an AI-based system using satellite remote sensing data for aquaculture monitoring.
- Implemented deep learning models (CNN, LSTM, GRU, CNN-LSTM) to predict water quality parameters such as pH, dissolved oxygen, turbidity, and salinity.
- Performed data preprocessing and analysis using Pandas and NumPy.
- Generated GIS-based suitability maps for optimal aquaculture site selection.
- Improved prediction performance through model comparison and optimization.

Full Stack E-Commerce Platform *React.js, React Native, REST APIs*

- Built a responsive e-commerce application with dynamic product listing and cart functionality.
- Integrated REST APIs and implemented persistent storage for cart management.
- Developed a mobile application using React Native with efficient navigation and optimized rendering.
- Focused on performance optimization and user-friendly interface design.

Certifications

- Data Structures and Algorithms in Python** (2025)
- Database Management Systems** (2024)

Achievements

- Selected for Internal Hackathon - Smart India Hackathon (SIH) 2025
- Participated in Udgam 24-hour Hackathon, Woxsen University
